

Rehabilitation of the Dentition through Root Canal Therapy

FINANCIAL INFORMATION

Endodontics, Ltd. is a dental practice that focuses on delivering high quality endodontic care. We are here to assist you to the best of our ability and answer any questions that you might have regarding your insurance or treatment fees.

Please check the box next to the statement that describes how you will be paying for the care that you receive today. The fee for a consultation and diagnosis is \$95. Should treatment be needed, this fee will be applied to the cost. Fees generally range from \$810 to \$1,230.

- I have no dental insurance.

- I have dental insurance which I understand only covers a portion of my dental fee. As my insurance carrier is unable to quote an exact amount of reimbursement, I will pay an estimated portion towards that fee at the time of treatment. If a balance remains after my insurance carrier has paid their benefit amount, I will be responsible for that balance.

My method of payment today will be _____ cash _____ credit/debit card

We regret we do not accept personal checks at this time.
